

A MESSAGE FROM THE FIRE DEPARTMENT DIRECTOR

In Quebec, public security during an emergency is the responsibility of the municipality. The municipality is currently in the process of re-structuring and modifying an emergency measure response plan for the territory.

We are analyzing the inventory of local resources in the territory and the recruitment of emergency intervention team members, in order to organize relief during a crisis.

In order to volunteer please complete the form below and return it to the municipal office. We will continue to inform you of the planning phases of the public security plan.

CITIZEN VOLUNTEERS REQUIRED

Could you be a part of the emergency intervention team in the event of a major crisis? (specify below)

- | | | | |
|---|---|---|--|
| <input type="checkbox"/> administrative work
(temporary clerical, registry, data processing) | <input type="checkbox"/> services for people in need
(inscription, lodging, cooks, health accompaniment, general services) | <input type="checkbox"/> citizen information service
(telephone service and counter information) | <input type="checkbox"/> various services
(mechanical, heavy equipment) |
|---|---|---|--|

Equipment / resource	Details	Equipment / resource	Details
Generator		ATV

In the event of a major crisis, could you provide temporary lodging? _____

Information for contact during an emergency

Name : _____

Address : _____

Home telephone : _____

other (specify) : _____

e-mail : _____

comments : _____

New communication system!

The municipality has granted a contract for the installation of a communication system that permits communication with the citizens by telephone during an emergency situation. The communication system will allow the municipality to contact a large number of citizens, in an efficient manner, during an emergency situation. For example, citizens will be advised quickly by telephone of a boil water notice in their sector. The municipality can contact all of the citizens in the municipality, as well as by sector or by specific road.

Citizens are asked to forward their information in order to be added to the system contact list.

To be added to the list :

- complete your information below and return the form to the municipal office to the attention of the fire department
- or send an e-mail with your information to – incendie@grenvillesurlarouge.ca
- or visit the public security section of our web-site www.grenvillesurlarouge.ca

Be assured that all personal information will remain private.
