THE ARGENTEUIL HOSPITAL FOUNDATION'S NEXT FUNDRAISING ACTIVITY A FUN FOR ALL GUESSING GAME !

Lachute, February 22nd 2021 – The Argenteuil Hospital Foundation (AHF) invites you to participate in our next virtual fundraising activity starting on March 1st: *Fill up on energy!*

From March 1st to the 28th, everyone can play a guessing game for the benefit of the Argenteuil Hospital Foundation. A large container filled with used batteries, donated by Recypro, will be posted on the Foundation's different social media sites and will also be on display in the window of 540 Main Street, Lachute. The object of this game is to guess the number of batteries in the container. At the end of the 4 weeks, the lucky participant who guessed the exact number of batteries will receive a cash prize of \$1,000 donated by Englobe Corp.

You will have 28 days to place your bets on the total number of batteries and become the lucky winner. To participate you'll simply have to visit the www.fhargenteuil.com site and place one or more bets. The cost of each bet is only \$5 and even better you can get 5 different bets for \$20. All profits will go directly towards the financing of the new Mini C-Arm already in full operation for outpatient surgeries at the Lachute Hospital.

The Argenteuil Hospital Foundation wishes to thank Englobe Corp., the sponsor of this activity, Recypro for the loan of the used batteries and the owner of the building at 540 Main St., Lachute for making this fun activity possible.

We thank all of you for donating to this worthy cause!

Get ready! All bets are on as of March 1st!

– 30 –
